

# Project Impact Report

## for Claud du Moine (1668) for 2024

---

### Visitors

**Total visitors annually:** 25

**Types of visitors:**

- Individuals
- Other

**Visitor impact:**

One volunteer shared that their experience at Claud-du-Moine inspired them to start their own project. They now are actively searching for a property in our region.

---

### Volunteers

**Total volunteers:** 0

**Volunteer roles:**

Up until now we only worked with friends and family... They helped install things, gardening and maintenance. But in the future we are thinking of working with volunteers.

---

### Community Impact

**Success:** Visitors to our permaculture homestead leave us with measurable improvement in their understanding of sustainable food systems.

**Key achievement:**

Successfully transformed a previously abandoned 6-hectare site into a thriving permaculture garden that supports biodiversity and create community.

---

### Challenges and Solutions

**Financial challenges:** Raising the money to get more systems up ...

**Overcoming challenges:**

During a particularly dry summer, we implemented a rainwater harvesting (2026) and drip irrigation (2025) systems. This not only saved our crops but also became the turning point for us to invest more in climate-resilient gardening practices.

**Innovative solutions:**

---

## Revenue

**Main revenue streams:** We rent out property which provides us with a small but stable income.
